

What is CMI?

The Cleaning Management Institute (CMI) has provided education and professional development of cleaning and maintenance professionals, managers, supervisors, and executives for more than 50 years. As the foremost provider of learning solutions for cleaning and maintenance professionals, CMI is committed to serving your educational and professional needs in the broadest possible range of subject areas, formats, and media.

Products

Our products are written for industry professionals by industry professionals who have years of experience doing what you do.

Choose from:

- > Train the Trainer
- > Custodial Technician Certification Training
- > Supervisor and Management Certification Training
- > Hard Floor Care Certification Training
- > Onsite Train the Trainer
- > Onsite Custodial Technician Training

Why Choose CMI?

CMI can help any team reach their optimum levels of success through our enhanced training programs.

- > As a building service contractor (BSC), you will have a step up on the competition as you can now provide a CMI Certified Custodial Technician at your client's facility!
- > As a facility manager you can now create your consistent training program to meet the ISSA's requirements for CIMS certification with CMI.
- > Reduce your overall budget through implementation of proper cleaning procedures with the Custodial Technician Training & Certification program.

Among Good Company

In the workplace and in the classroom, CMI's educational offerings are used by hundreds of cleaning and maintenance professionals across the country and throughout the world.

Train the Trainer

CUSTODIAL TECHNICIAN PROGRAM

CMI's Train the Trainer course provides all the tools and skills needed to develop a successful training program for your organization. Whether you're a building service contractor or facility manager, Train the Trainer's three-day program covers the core principles of cleaning, and the best practices for supervising and implementing the training program.

Train the Trainer Includes:

- Classroom and hands-on training
- Proven techniques and best practices
- Independent third-party certification to meet requirements for ISSA's Cleaning Industry Management Standard (CIMS)

Customizable Training Solutions

CMI has the flexibility to send a CMI Master Trainer to your facility and customize our Train the Trainer program to meet your organization's needs. If you are interested in hosting an on-site Train the Trainer event, please contact Brant Insero at brant@issa.com.
